BIO; BOKTRON

Boktron is a DJ based in Antwerp, known for navigating the full spectrum of house music with a deep sense of rhythm and atmosphere. His sets balance tight, rolling grooves with bursts of energy — always built to move both body and mind.

Refined yet dynamic, his sound blends sticky basslines, spacious melodies, and the occasional breakbeat or trance-infused layer to keep things evolving. Nothing overdone, just carefully crafted momentum that pulls you in and holds you there. As co-founder and resident of Klubb Kontrast, Boktron is part of a movement that prioritizes presence on the dancefloor. No phones, no distractions — just music, connection, and pure release. It's a space where genre boundaries blur and every track serves the moment.
